Renewable Energy Resources Eligibility Applications – Review of the following applications. These applications have been pending for more than two years without approval based on an outstanding request from the Commission/its consultant for more information. The applicant has been contacted and in some instances, ownership has changed hands. Where that has occurred, the current owner has been contacted and advised to file a new Application. Therefore, the Commission may reject each of the following applications for lack of compliance with the RES application process. However, such a determination does not address the merits of the application nor does it preclude the applicant or the subsequent project owner from submitting a new Renewable Energy Resource application.

- 4190 – Somerset Power, LLC’s application for certification of the Somerset Station Unit 6 Generation Unit. Application filed July 10, 2010.**
- 4014 – Industrial Power Services Corporation’s application for certification of the Granby LFG Generation Unit. Application filed November 21, 2008.**
- 3882 – Evergreen Wind Power, LLC’s application for certification of the Mars Wind Hill Generation Unit. Application filed October 4, 2007.**

4400 - Great Bay Hydro Corporation (Company) – Review and rule on the Company’s March 12, 2013 application seeking certification for its Newport Hydro Generation Unit, a 4.0 MW Small Hydro energy Generation Unit located in Newport, VT, as a resource capable of

producing as both a New and Existing Renewable Energy Resource.

2379(A3) – Direct Energy Business, LLC (Company) – Review and rule on the Company’s May 31, 2013 application for authority to transact as a gas marketer in Rhode Island.

4364 – Narragansett Bay Commission (NBC) – Review and rule on NBC’s June 24, 2013 compliance filing and tariffs. The compliance tariffs will generate additional revenues of \$8,049,290 or 9.32% to support a revenue requirement of \$94,397,665 effective July 1, 2013.

.

4402 – National Grid (“NGrid”) - Review and rule on NGrid's March 21, 2103 tariff filing to amend RIPUC NG-GAS No. 101 (Modification of General Terms & Conditions - Installation of Meters) to eliminate the requirement that residential customers with emergency back-up gas generators in excess of 12kW be separately metered and billed. The tariff was subsequently revised on June 19, 2013.

4412 – National Grid - Review and rule on NGrid’s May 15, 2013 Long-Term Contracting for Renewable Energy Recovery (“LTCRER”) Reconciliation Filing and proposed LTCRER factor for the period July 1 – December 31, 2013.

4411 – National Grid – Review and rule on NGrid's May 15, 2013 annual Revenue Decoupling Mechanism (“RDM”) Filing and proposed RDM Adjustment Factor for the period July 1, 2013 – June 30, 2014.

4393 – National Grid – Review and rule on NGrid's March 1, 2013 proposed 2014 Standard Offer Service Procurement Plan and 2014 Renewable Energy Standard Procurement Plan.
